OMEGaverse

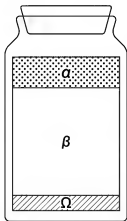

Another gender aside from males and females exist: alpha, beta, and omega. Males are able to get pregnant as well, if they are an omega. Within their rectum is a womb where the omega can get pregnant if they have sex during heat with an alpha or beta male.

Special characteristics of alphas, betas and omegas

α Born with superior appearance and intelligence. They have the traits of a rare, charismatic leader. Known as the elite type, they take up a majority of the upper echelons of businesses and organizations.

β Comprises of over 70% of the human population. Features such as physical and behavioral traits are generally normal. Marriages between this type are the usual, with a high percentage of the child being born as a beta.

Ω A rare breed where pregnancy is possible for these males. On one hand, omegas are revered because an alpha individual is born out of an omega. However, because omegas experience heat that no one can restrain themselves from, they are seen as inferior. Therefore, they are largely not given high positions by their employers.

▲ alpha, beta, and omega human population comparison

About the Gender Examination

It is an obligation of the people placed by the government to undergo a blood test to determine if they are an alpha, beta, or omega. They are required to provide their medical documents as they progress through their school years and into the working world.

Ω Heat

A heat is a scheduled period where symptoms of this condition are shown for one week. During this period, the omega is incapable of doing anything as they emit pheromones that attract unpaired alphas and betas. Alphas, in particular, are sensitive to an omega's pheromones and thus, react heavily to this.

Pairs

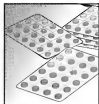

A connection stronger than that of a family, married couples and lovers, in which only an alpha and omega are able to develop and be bonded with. During heat, an alpha bites the nape of an omega, completing the bond. This causes the omega to only have the capabilities of having sex with their paired alpha. The omega is also not capable of emitting their pheromones to anyone other than their pair.

Pheromone Suppressant

Medication used to suppress both an omega's pheromones and their heat.

Birth Control Pills

For the use of avoiding pregnancy.

BUT HE
USED THAT

IT'S REALLY
AMAZING
THAT THE

ABLE TO
GET THE
POSITION
THAT HE
GOT.

JUST
BECAUSE
HE'S AN

HAHAHA...
RIGHT...

IT'S
BEST
IF YOU
ARE
CAREFUL-
IF YOU
GET ON
HIS BAD
SIDE, HE'S
THE
ABSOLUTE
WORST.

I MEAN,
OTHER
OMEGAS
WOULDN'T

RUSTLE

RUSTLE

PM 11:40 I believe looks out at that thought. Like his facial expression.

Attila:

I thought his room was an escape though. PM 11:40

BBB:

PM 11:41

that's true, so I don't really understand it when he says things like "it's my first time being in a place with an escape" or something unless he doesn't count his room.

Attila:

if he doesn't, that's super weird. PM 11:42

Attila:

maybe he means he hasn't been around an escape in a really long time. PM 11:42

BBB: 5

PM 11:43

unless he's long out of his mind for a while.

BBB:

PM 11:43

and thinking on account why he feels uneasy around omegas (mostly consumed)

BBB:

PM 11:43

instead of saying "omegas are disgusting and I hate what they did"

BBB:

PM 11:43

he says "because I've never been around them so I'm not sure how to act"

BBB: 5

PM 11:43

as good as saying he's awkward

BBB: 5

PM 11:44

yeah, I think that's it.

Attila:

I think he is saying that he (has never) interacted with them. PM 11:44

BBB: 5

Attila:
